

Problem of the Week

Problem A

Blind Soccer

Blind people play soccer in the Paralympics. Blind soccer is just like soccer for the sighted, except that each half lasts 25 minutes, rather than 45 minutes.

Jordan plays blind soccer on the Screaming Eagles team. In order to win a match, Jordan's team must win 3 of 5 games. Her team won the match.

- A) What is the minimum number of minutes her team must play to win a match?
- B) How many hours is this?
- C) What is the maximum number of minutes her team could play to win a match?
