Problem of the Week

Problem A

Enough Money?

Rosa has six dimes, seven quarters, three $5 bills, and one toonie. She would like to purchase some Lego™ for $20.00. Does Rosa have enough money? Justify your answer.

In Canada, a dime is worth 10¢, a quarter is worth 25¢, a toonie is worth $2.00, and 100¢ is equal to $1.00.
