The 2017 CCC managed to run much more smoothly than the 2016 contest.

Students found it challenging, with fewer perfect scores than in the past, but many students managed to have some success on many problems, with a variety of approaches able to obtain partial marks on each question.

The 2017 CCC was also entirely online, which has made the results gathering easier. For students who are not familiar with the CCC languages, a good starting point is to learn Python: for the 2017 contest, all problems have solutions in Python that would have received perfect scores. To learn Python, we recommend the the CS Circles On-line Resource at:

`cscircles.cemc.uwaterloo.ca`

I hope you found the contest this year interesting and educational, fun and intriguing. Thanks for being a part of it.
