

Problem of the Week

Problem A

The Metric Argument

Millie, Kai, Mircea and Candice were debating about which metric units they liked the most. Millie thought millimeters were best, Kai loved kilometers, Mircea loved meters, and Candice's favourite was centimeters.

Who should measure each of the following lengths with their favourite unit, if they want to keep each value between 2 and 50, inclusive?

Length Being Measured	Measurer
The length of an ant	
The length of a bus	
The length of a marathon	
The length of an adult foot	
The length of a new pencil	
The length of an olympic swimming pool	
The length of a human baby tooth
